Analiza grobih betonskih površin in odtisov v ometu predstavlja osnovno inspiracijo kolekcije Surface. Ploščice zaznamuje diskretna, stilizirana osnovna betonska struktura v kombinaciji s 3D dekorativnimi elementi. Izbiramo lahko med elegantno valovito organsko strukturo in moderno naključno kombinatoriko geometrijskih vzorcev (patchwork). Kolekcija se odlično ujema z različnimi naravnimi ali umetnimi materiali (les, cement, kamen, tekstil,...), s katerimi oblikuje unikatne ambience v skladu s sodobnimi trendi.

Analysis of rough concrete surfaces and imprints in plaster represents the basic inspiration of the Surface collection. The tiles are characterized by discrete, stylized concrete structure in combination with 3D decoration elements. You can choose between elegant wavy organic structure or a modern random synthesis of geometric patterns (patchwork). The tiles are matching beautifully with other natural materials (wood, cement, stone) with which they create unique ambiances in accordance with contemporary trends.
